
IOWA UTILITIES BOARD
Policy Development Section

Docket No.: EEP-2012-0002
Utility: MidAmerican Energy Company
Memo Date: May 28, 2014

TO: The Board

FROM: Brenda Biddle and Gordon Dunn

SUBJECT: Acceptance of Compliance Information

I. Background

On December 16, 2013, the Board issued the Final Order in the MidAmerican Energy Company (MidAmerican) 2014-2018 Energy Efficiency Plan docket (EEP-2012-0002). The Final Order approved the non-unanimous partial settlement agreement filed on August 26, 2013, by MidAmerican, the Consumer Advocate Division of the Department of Justice, the Environmental Intervenors (Environmental Council, Environmental Law and Policy Center and Iowa Policy Project), the Iowa Customers for Energy Efficiency, and Deere & Company, subject to the clarifications and modifications contained in that order. MidAmerican was required to document any program specific changes in annual savings impacts and update the total savings impacts by year due to the Settlement Agreement and the Final Order. The information was to be filed with the Board on or before January 31, 2014, and was to also include an update of any budget or savings changes.

II. Analysis

On January 31, 2014, MidAmerican filed some of the information requested by the Board's Final Order and stated additional revisions would be filed on or about February 24, 2014. MidAmerican filed those additional revisions on February 24, 2014. Staff reviewed the information and found that updated benefit cost information had not been filed. Subsequently, on May 5, 2014, MidAmerican filed an Excel workbook titled CBR Schedule 6 – Annual Results (Revised) which contains the updated benefit cost information.

MidAmerican's filings provided revised savings targets for MidAmerican's 2014-2018 Energy Efficiency Plan as well as updating the projected spending for the plan. The revised savings targets incorporate modifications due to the settlement agreement and the Board's Final Order. These savings targets are summarized in the table below.

	2014-2018 Energy Efficiency Plan Savings Targets	
	Electric Programs (kWh)	Natural Gas Programs (Therms)
2014	242,676,657	6,681,546
2015	258,293,696	7,099,336
2016	257,157,205	7,311,815
2017	260,310,331	7,602,924
2018	262,549,083	7,859,584

Staff has reviewed MidAmerican's filings and believes that MidAmerican has provided information that is consistent with the settlement agreement and the Board's Final Order.

II. Recommendation

Staff recommends the Board issue the attached order accepting the information filed by MidAmerican on January 31, 2014, February 24, 2014, and May 5, 2014, as complying with the Board's Final Order in Docket No. EEP-2012-0002.
